Thanks for the response. Sorry we didn't get back to you. We have activated the EOC for the Gold King Mine release in R8 so we have been a bit out of pocket.

policies have already been compromised." Given the big dollars at this site, OSRE feels more analysis of the insurance situation is appropriate. We have an OSRE insurance team and bankruptcy team that could help with necessary analysis.

Finally, just a reminder that a Region is expected to consult with OSRE for every ceiling increase of more than \$2M. I didn't have a chance to comprehensively check our records, but I don't recall a previous OSRE consultation regarding this site. There was at least one large ceiling increase (April 2014, more than \$5M) that post-dates the 2013 memo clarifying when consultation is needed.

Our preference would be to receive an updated Enforcement Addendum addressing our concerns before considering this consultation complete.

I am out of the office this week but expect to check emails in the evening. If you have any questions / concerns, Bruce Kulpan is up to speed on this case as well.

Thanks,

Anne Berube

Attorney Advisor, OSRE
